NATIONALLY-RECOGNIZED INTERIOR DESIGNER WINS PRESTIGIOUS TITLES

Juliana Ewer and J Squared Home Designs Earns a Designer of the Year Award in Two Interior Design Society Categories

What started as a personal project four years ago has grown into a full-fledged, nationally recognized interior design business for Juliana Ewer, owner of J Squared Home Designs. Creating living spaces that reflect a homeowner's vision is her pleasure and passion. With an artistic flair and acute eye for color, symmetry, and balance, J Squared is an extension of Juliana's highly regarded talents.

Juliana's talent for interior design was nationally recognized last month at the Designer of the Year (DOTY) gala. She garnered two prestigious DOTY titles from the Interior Design Society (IDS). Judged by a panel of industry leaders, vendors, and designers, Juliana was awarded in both "Whole Home Design Over 3,000 Square Feet" and "Single Space: Powder Bath."

CLIENT-FOCUSED CURATION

Residential interior design is Juliana's primary business. She works projects with a minimum opening budget for furnishings, lighting, window treatments, art, and accessories. Access to trade-only custom furniture, bathroom vanities, mirrors, and lighting allows her to offer high-end furnishings from top showrooms around the country and abroad.

DESIGN INSPIRATION

Juliana draws significant design inspiration from the incredible architecture and historic buildings while traveling in Europe. Last month she traveled to Paris with a group of designers for a week-long visit to Paris Design Week and the Maison Objet, a French market offering European furnishings and rare objects.

APPEALING DETAILS AND SIGNATURE STYLE

Juliana's signature style comes into play when searching for interesting and unique accessories to complement clients' design aesthetic. She displays vignettes of color and texture in surprising ways that delight the homeowner.

THE BIG REVEAL

Juliana makes sure each project reveal is a thrilling and unforgettable experience for her clients. She requests clients leave for the day during design installation. This is when the magic begins – placing newly acquired furnishings, art, and decorative touches including sheets, bedding, pillows, and window treatments. "Seeing their faces when they walk in the door is such a rewarding experience."

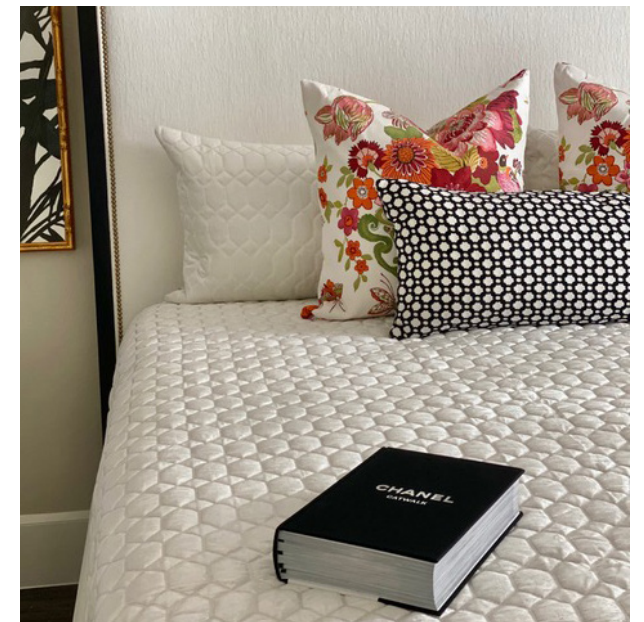

Kingwood homeowner and client Don Gould recalls the moment he and his wife saw their new design reveal. "When Juliana opened the door to our home, we were overwhelmed with emotion. It was amazing! So far beyond our expectations! Every little detail was perfect and beautiful."

"We've been so blessed with wonderful clients that love and appreciate what we do," Juliana says. My clients trust me to lead them down a creative path to a smart investment with stunning results."
